AADONA Transit Damage Warranty Policy

1. Purpose

As AADONA manufactures products only against confirmed orders, this policy defines how Transit Damage Claims are processed. Safe logistics and timely reporting are essential.

2. Logistics Arrangement

AADONA may ship through selected logistics partners as a convenience option. Buyers may also arrange their own logistics, and in that case AADONA is not liable for any transit damage or loss.

3. Insurance (AADONA-Arranged Shipments)

All shipments arranged by AADONA are 100% transit insured. In case of total loss, AADONA refunds the material cost minus logistics and insurance charges.

4. Mode of Shipment for Damage Claims

All approved transit damage replacements are dispatched only via surface mode. If the buyer requests air shipment, the buyer must bear the differential cost.

5. Definition of Transit Damage

Transit damage includes cracked/dented chassis, damaged/torn packaging, missing items due to mishandling, internal component damage clearly caused by shock/impact, and water/moisture damage during transit.

6. Claim Eligibility Conditions

Buyer must inspect the shipment at delivery. Any visible damage must be marked as 'Package Damaged' on POD. Claims must be reported within 24–48 hours. Complete evidence including photos/videos of outer box, inner packaging, damaged product, POD remark, invoice, and other documents must be provided.

7. Exclusions

Not covered: late claims, product used before reporting, POD signed as 'Received in Good Condition', buyer-arranged logistics, internal issues with intact packaging, mishandling after delivery, force majeure.

8. Claim Resolution Process

AADONA reserves the right to replace the entire unit or only the damaged component. Full-unit replacement is only provided in total-loss insurance-approved cases. If the product is damaged (e.g., broken internal component) but not total-loss, only the damaged part will be replaced. Replacement dispatch is via surface only, unless buyer pays extra for air shipment.

9. Buyer Responsibilities

Buyer must retain all packaging, accessories, and components until claim closure. Returned products must include all accessories and be packed safely. If returned material is improperly packed or parts are missing, the product will be returned unprocessed. Buyer must cooperate with courier/insurance investigation.

10. AADONA's Commitment

AADONA ensures robust QC, strong packaging, insured logistics partners, and fair claim evaluation.

11. GENERAL TERMS & LEGAL JURISDICTION

- All warranty and replacement decisions are based on AADONA's technical verification.

- All disputes fall under the exclusive jurisdiction of Raipur, Chhattisgarh courts only.
